number one

ON THE COVER: A plan of Irasburgh, Vermont, 1792, courtesy of the Wilbur Collection, University of Vermont Library. Eighteenth-century American surveyors adapted European tree lore to their own unique environment, classifying land as “Good,” “Middling” and “Bad” according to the species of tree they found thriving there. See “Fair Fields and Blasted Rock: American Land Classification Systems and Landscape Aesthetics,” by John R. Stilgoe, pages 21-33.

american studies

an interdisciplinary journal sponsored by the Midcontinent
American Studies Association and the University of Kansas

stuart levine, editor

associate editor:

david m. katzman, History, University of Kansas
