

## New headset with wireless boom passes all tests

The new Telex 2400 headset hangs in there even through almost inhuman tests for ruggedness and fidelity. ■ The new wireless boom rotates 360°. It's the nuts for teaching labs. Fully adjustable. Puts the microphone close to the lips to take full advantage of the noise cancelling characteristics of the dynamic microphone. Insures "original voice" clarity. And you hear it like it is, with soft, comfortable ear cushions with a special acoustic seal. ■ Rugged, it has reinforced construction to withstand heavy classroom use and all student monkeyshines. ■ Want the whole wild story? # MULTITAPE<sup>®</sup> HIGH SPEED TAPE DUPLICATORS

U. S. PATENT NO. 3177299

. . . make high fidelity copies of your master tapes quickly, easily and economically. MULTITAPE models are available to produce as many as six monaural or stereo tape copies in just six minutes—quantity copies at a rate of sixty an hour. Maintenance is minimal. All-solid-state electronics give cool, long-lived operation—and no tubes to replace. A specially designed torque motor means no clutches to adjust, no belts to replace. MULTITAPE units have proven themselves for more than a decade in leading universities and educational systems throughout the United States and foreign countries. They qualify for purchase under N. D. E. A. Write today for details and specifications on this unique, money-saving equipment.

MANUFACTURED AND SOLD EXCLUSIVELY BY

# RHEEM CALIFONE DIAL ACCESS RETRIEVAL SYSTEM

The Only System With Solid State Switching... years ahead in technology... leading the field in the state of the art.

- No moving parts to wear
- Low maintenance time
- No mechanical parts to service
- Completely automatic superior quality tape transports
- Instant program retrieval — no waiting or busy signal

Tailored to fit any physical or academic requirements.

Call us collect at (213) 870-9631 (Mr. Ross)

**Would you  
gamble  
this man's  
mission on  
"low bid"  
equipment?**

## **Obviously not!**

Quality, reliability, fail-safe dependability . . . these are not inexpensive. Imagine, if you will, the consequences of a space mission executed with electronic gear purchased on a "low-bidder" basis. Unthinkable!

In modern education too, the need for reliability and quality in electronic equipment is obvious. This is precisely why Tandberg electronic teaching systems are demanded by knowledgeable educators. For nothing has been spared to make Tandberg the standard of excellence.

Maintenance and service of Tandberg equipment is easy, uncomplicated — all due to quality manufacture. Consequently, the "better, clearer, more natural sound" of Tandberg becomes an important tool for education everywhere.
