Sony's grand opening of the first mobile language lab.

With Sony's MOBILAB™, languages can be taught in any room, under a tree, even *sur la plage*. And MOBILAB can go from school to school for maximum utilization with minimum equipment cost.

It's about the same reasonable price as a wireless installation, but without that poor wireless sound that has teachers everywhere crying "*oncle!*"

On the other hand, fixed labs do have good sound, true. But the cost? *Gott im Himmel!*

MOBILAB gives you the quality sound of a fixed lab but at a much lower cost.

But no other system, fixed or wireless, offers as much operating ease and teaching flexibility: all three teaching levels plus independent study (the students can take the player/recorders with them).

Each of the compact MOBILAB cabinets includes console, teacher player/recorder, 10 student player/recorders, and headsets for all.

Two or more MOBILAB units can be quickly, easily coupled to instruct any number of students.

"*¡Un sistema maravilloso de lengua!*" can now be very clearly enunciated, anywhere, with the portable MOBILAB. Write to the Sony Information Center NAL-115 for further information.
