

Sony's MOBILAB™ the first mobile language lab.

With Sony's MOBILAB, languages can be taught in any room, under a tree, even *sur la plage*. And MOBILAB can go from school to school for maximum utilization with minimum equipment cost.

It's about the same reasonable price as a wireless installation, but without that poor wireless sound that has teachers everywhere crying "oncle!"

On the other hand, fixed labs do have good sound, true. But the cost? Gott im Himmel!

MOBILAB gives you the quality sound of a fixed lab but at a much lower cost.

But no other system, fixed or wireless, offers as much operating ease and teaching flexibility: all three teaching levels plus independent study (the students can take the player/recorders with them).

Each of the compact MOBILAB cabinets includes console, teacher player/recorder, 10 student player/recorders, and headsets for all. Two or more MOBILAB units can be quickly, easily coupled to instruct any number of students.

"¡Un sistema maravilloso de lengua!" can now be very clearly enunciated, anywhere, with the portable MOBILAB.

Write to Sony Corporation of America, Information Center, Dept. 249-E, Box 1594, Trenton, N. J. 08607.

SONY
Quality Learning Systems.

• Increase teacher effectiveness. • Stretch budgets. • Provide two to 12 programs of independent as well as group study. • Use in any classroom, even on school buses. • Use in every curriculum area. • Isolate students from distracting noise . . . permit students to concentrate. • Console accepts handy cassettes, or plug-in audio from any sound source. • System can be installed and used in just one day. **Another innovative system from P/H . . . the manufacturers of MONI-COM II,™ the patented two-way wireless language laboratory.**
