CAI Seminar-The American Language Academy presents the following seminar:

INDIVIDUALIZED LANGUAGE TEACHING THROUGH MICRO-COMPUTER-ASSISTED INSTRUCTION

August 10-14, 1982, Ashland, Oregon. This intensive five-day seminar will provide the theoretical background and hands on experience necessary to enable participants to make practical use of the microcomputer-assisted language instruction. The curriculum will cover such areas as the effectiveness of CAI in teaching individual language skills, designing CAI educational programs, finding and evaluating packaged software, and buying a microcomputer system for CAI. For further information contact CAI Seminars, American Language Academy, The Catholic University of America, Washington, D.C. 20064.

EDITOR'S CORNER

At the November 1982 ACTFL convention in Denver, the Executive Board of Directors of the National Association of Learning Laboratory Directors voted to change the name of the organization to the International Association for Learning Laboratories (IALL). Simultaneously, a new constitution was adopted. Joseph H. Sheehan of the University of Houston became, in effect, the last President of NALLD, while the NALLD Vice President, Victor Aulestia, University of Maryland Baltimore County, became the first President of IALL. Roger Sanches-Berroa, Wesleyan University, became the Vice President/President elect, and Mary Lynn Flowers, University of Kentucky, became the Recording Secretary. The remaining board members, Charles Richardson, Ohio University, Leslie Bailey, Northwestern University, and Dale V. Lally Jr, University of Louisville, retained their former positions. This move was taken in order to more accurately reflect the vast number of NALLD members residing outside the United States. The IALL constitution appears elsewhere in this journal. The NALLD JOURNAL will retain its respected acronym but the new meaning will be NEW ADVANCES IN LEARNING LABORATORY DEVELOPMENTS. Additionally, the Journal will carry the motto "Dedicated to Technology and Mediated Instruction." The editorial staff of the NALLD JOURNAL wishes to welcome the members of the IALL Executive Board of Directors.
