

Be there!

Learn Contact French™ in the Paris Classroom with Professor John Rassias.

CBS/FOX VIDEO proudly announces CONTACT FRENCH, a new ten-lesson videocassette language series starring the incomparable Professor John Rassias of

Dartmouth College. Watch as Rassias portrays Napoleon, Diderot, a concierge, a master chef, and a host of other French characters! CONTACT FRENCH concentrates on dramatic elements, a high level of energy, and constant participation on the part of students and teachers. The Rassias Method of teaching French is so effective that hundreds of colleges and high schools are now using it to motivate students, encourage communication in French and enhance appreciation of French culture.

And best of all, it's done in Paris! Your students see and experience the sights, sounds, culture and "joie de vivre" of the French people.

Your students will discover that learning French with the aid of CONTACT FRENCH is fun, fast paced, and totally involving! Use the video and written materials as tools for group learning, to help students learn at their own pace, and to reinforce your text/language approach.

Make the Rassias Method work for you and your students with CONTACT FRENCH.

There's more to lab design... ...than meets the eye!

Sight lines. Head angles. Arm reach. And much, much more. Ignore these, and you jeopardize learning. Or, create a high-performance environment by building human factors principles into your lab design.

Which is our specialty. For eight years now we've been planning and installing turnkey learning centers in the US, Europe, & the Middle East. They include language labs, micro-computer labs, multi-media LRC's, interactive video systems, and combinations of all four.

Planning a new facility? Upgrading an existing one? Let us help. An informative packet of ideas and sample layouts is yours for the asking. Call (513) 561-4740 collect or write us at 7480 DeMar, Cincinnati, OH 45243.
