IALL '91

Success In the Language Lab:

Lab Management
Multimedia
Faculty Involvement

The biennial meeting of the International Association of Learning Laboratories is to be held this year from June 27-29 at the University of California, Los Angeles. IALL '91 will be hosted by Kathleen Ford, who, along with several other IALL members has worked hard to put together a program that will be informative, entertaining, useful, and enjoyable.

By now all of you should have received the conference brochure and registration information. The agenda on the following pages simply "fills in the blanks" as to who is speaking and when (subject, of course, to last minute changes). What doesn't appear are some of the planned social events, and the opportunities to share ideas, questions, problems, and solutions with colleagues from around the world. (See the brochure you received by mail or the announcement on page 34 for more information).

If you haven't yet registered for the meeting, *now* is the time to do so. We hope to see *all* of *y'all* at *IALL '91*!
