#### *New IALL Publication "In the Works"*

The long-awaited follow-up to IALL's first monograph, *Task-Based Activities: A Communicative Approach to Language Laboratory Use*, is scheduled for publication in April 1993. Submissions for *Task-Based II: More Activities for the Language Lab* are being solicited now by monograph editor LeeAnn Stone.

The goal of the first publication was to present basic ideas and templates for communicative lab activities. As a follow-up, *Task-Based II* will provide examples of detailed and more sophisticated activities from a variety of sources across the country. Activities will be attributed to the individual designers and their institutions, and a new section entitled "Rationale" will provide a forum for discussing the differences among the activities. In this way, *Task-Based II* will provide teachers and lab directors with a wide variety of styles and approaches to communicative lab activities.

If you are interested in contributing to this monograph, please contact LeeAnn Stone at Humanities Instructional Resource Center, University of California at Irvine, Irvine, CA 92717, (714)856-6344. Email: lstone@orion.oac.uci.edu
