Editors' Remarks

MIKLOS SCHIBERNA

Frilled Lizard (*Chlamydosaurus kingii*)

The International Reptile Conservation Foundation and *Reptiles & Amphibians* are delighted to make an appearance at the Australian Herpetological Symposium 2011, themed "Rare and Endangered." We welcome symposium participants to join us in our mission to conserve reptiles and amphibians and the natural habitats and ecosystems that support them. The editors of *R&A* would like to encourage new IRCF members to submit articles about the herpetofauna of your homeland. To us, the reptiles and amphibians of Australia are quite exotic and of great interest. Just as we enjoy sharing our experiences in the Americas, we would like to see more from you about your own special creatures.

The Editors of *R&A*
